SEYCOVE SECONDARY

Drafting 12 **Course Code: MDDF-12**

Drafting 12 builds on the skills learned in Drafting 11. Students will continue to explore 2D drafting concepts, 3D modeling, and 3D architectural design. Software packages used in this class include AutoCAD, Sketch-Up, and Chief Architect. This senior class allows students to explore areas of interest independently. Typical projects may include 3D modeling of complex objects, home renovation projects, and house deign.
