

## **Announcements for Wed. Oct 5th, 2016**

Terry Fox was only 18 when his leg was amputated, he believed he could make a difference and he has proven that one person CAN make a difference. Terry showed that he was a risk taker by making a goal to run across Canada to raise awareness and money for Cancer research. He showed that he cared about others and their needs before his own.

This Friday let's continue Terry's Marathon of Hope by running in honour of our Friends and Family who have been affected by cancer. Any donation can make a difference. In the words of Terry "I wish people would realize that anything is possible if you try; dreams are made possible if you try."
