MANAGEMENT REPORT

The Financial Statements contained in this Statement of Financial Information under the *Financial Information Act* have been prepared by management in accordance with Canadian generally accepted accounting principles and the integrity and objectivity of these statements are management's responsibility.

Management is also responsible for all other schedules of financial information and for ensuring this information is consistent, where appropriate, with the information contained in the financial statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Board of Education is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal control and for approving the financial information included in the Statement of Financial Information.

The external auditors, KPMG, LLB, conduct an independent examination, in accordance with generally accepted auditing standards, and express their opinion on the financial statements as required by the *School Act*. Their examination does not relate to the other schedules of financial information required by the *Financial Information Act*. Their examination includes a review and evaluation of the board's system of internal control and appropriate tests and procedures to provide reasonable assurance that the financial statements are presented fairly.

On behalf of School District 44

Management Report

Version 9214-8469-6486

Management's Responsibility for the Financial Statements

The accompanying financial statements of School District No. 44 (North Vancouver) have been prepared by management in accordance with Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia supplemented by Regulations 251/2010 and 198/2011 issued by the Province of British Columbia Treasury Board. The integrity and objectivity of these statements are management's responsibility. Management is also responsible for all the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 44 (North Vancouver) (called the "Board") is responsible for ensuring that management fulfills its responsibilities for reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial information on a periodic basis and external audited financial statements yearly.

The external auditors, KPMG LLP, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have free and full access to financial management of School District No. 44 (North Vancouver) and meet when required. The accompanying Independent Auditor's Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

INDEPENDENT AUDITORS' REPORT

To the Board of Education and
To the Minister of Education, Province of British Columbia

We have audited the accompanying financial statements of School District No. 44 (North Vancouver), which comprise the statements of financial position as at June 30, 2013, June 30, 2012 and July 1, 2011, the statement of remeasurement gains and losses for the year ended June 30, 2013, the statements of operations, changes in net debt and cash flows for the years ended June 30, 2013 and June 30, 2012, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of School District No. 44 (North Vancouver) as at June 30, 2013, June 30, 2012 and July 1, 2011 and for the years ended June 30, 2013 and June 30, 2012 are prepared, in all material respects, in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

Emphasis of Matter

Without modifying our opinion, we draw attention to Note 3 to the financial statements which describes the basis of accounting and the significant differences between such basis of accounting and Canadian public sector accounting standards.

NOTE 1 AUTHORITY AND PURPOSE

The School District, established on April 12, 1946, operates under authority of the School Act of British Columbia as a corporation under the name of "The Board of Education of School District No. 44 (North Vancouver)", and operates as "School District No. 44 (North Vancouver)." A board of education ("Board") elected for a three-year term governs the School District. The School District provides educational programs to students enrolled in schools in the district, and is principally funded by the Province of British Columbia through the Ministry of Education. School District No. 44 (North Vancouver) is exempt from federal and provincial corporate income taxes.

NOTE 2 ADOPTION OF NEW ACCOUNTING FRAMEWORK

Commencing with the 2012/13 fiscal year, the School District has adopted accounting standards in accordance with Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board as described in Note 3a). Previously, the School District's financial statements were prepared in accordance with Part V of Canadian generally accepted accounting principles ("Part V Canadian GAAP").

Except for certain transitional elections disclosed below and the adoption of PS3450, Financial Instruments, effective July 1, 2012, the School District has consistently applied the same accounting policies in its statement of financial position as at July 1, 2011, the date of transition to the framework, and throughout as if these policies had always been in effect.

These financial statements are the first financial statements for which the School District has applied these standards.

The School District has elected to use the following exemptions available as of July 1, 2011:

- Retirement and post-employment benefits:
 - a. The School District has elected to delay the application of Sections PS 3250, Retirement benefits, and 3255, Post-employment benefits, compensated absences and termination benefits, relative to the discount rate used until June 30, 2013 (to coincide with the March 31, 2013 valuation);
 - b. The School District has elected to recognize all cumulative actuarial gains and losses at July 1, 2011 directly in accumulated surplus; and
- Tangible capital asset impairment:
 - a. The School District has elected to apply the impairment provisions of Section PS 3150, Tangible Capital Assets, on a prospective basis from the date of transition.

Page 8 June 2013

NOTE 2 ADOPTION OF NEW ACCOUNTING FRAMEWORK (Continued)

Key adjustments on the School District's financial statements resulting from the adoption of these accounting standards are as follows:

- Previously, the School District was not required to record an accrued benefit obligation related to sick leave benefits as the benefits do not vest. The new accounting framework requires that a liability and an expense be recognized for post-employment benefits and compensated absences that vest or accumulate in the period in which employees render services to the School District in return for the benefits. An adjustment was made to recognize a liability and an expense related to accumulated sick leave entitlements. The adjustment to the liability for employee future benefits at July 1, 2011 was \$763,012 resulting in a revised liability of \$5,812,151. An additional expense of \$170,749 was recognized in the 2012 fiscal year related to the accrual for accumulated sick leave entitlements, determined by an actuarial valuation.
- In accordance with the first time elections, the School District recognized all previous cumulative actuarial gains and losses relating to employee future benefits of \$1,397,934 at July 1, 2011 resulting in a decrease to the Employee Future Benefits liability and an increase in accumulated surplus. Additional expense of \$99,738 was recognized in the 2012 fiscal year as a result of removing the amortization of those cumulative actuarial gains and losses.
- The new accounting framework does not permit the recognition of collections of art, historical treasures or similar assets that are held for public exhibition, education, or research. An adjustment of \$1,456,579 was made to the Permanent Art Collection at July 1, 2011 and \$1,545,895 at June 30, 2012. Additionally, an adjustment of \$1,507,477 was made to deferred revenue at July 1, 2011 and \$1,521,053 at June 30, 2012.
- Deferred revenue presented in the capital fund under Part V Canadian GAAP was reclassified to deferred capital revenue under the new accounting framework of \$5,954,886 at July 1, 2011 and \$4,257,119 at June 30, 2012.

	Part V Canadian GAAP	Adjustment	New accounting framework
	July 1, 2011	July 1, 2011	July 1, 2011
	\$	\$	\$
Employee Future Benefits	6,447,073	(634,922)	5,812,151

NOTE 2 CONVERSION TO PUBLIC SECTOR ACCOUNTING STANDARDS (Continued)

The impact of the conversion to the new accounting framework on the accumulated surplus at July 1, 2011 and the comparative annual surplus is presented below. These accounting changes have been applied retrospectively with restatement of prior periods.

Accumulated surplus, Part V Canadian GAAP, July 1, 2011	\$89,895,341
Adjustments to accumulated surplus	
Add non-vested benefits to Employee Future Benefits	(763,012)
Recognize cumulative unamortized actuarial gain on Employee Future Benefits	1,397,934
Accumulated surplus, new accounting framework July 1, 2011	\$90,530,263
Annual deficit, Part V Canadian GAAP, for the year ended June 30, 2012	\$3,303,897
Adjustments to annual surplus for the year	
Employee Future Benefits amortization expense	(71,011)
Annual surplus for the year ended June 30, 2012	3,232,886
Accumulated surplus, new accounting framework, June 30, 2012	\$93,763,149

Page 10 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District are prepared by management in accordance with the basis of accounting described below. Significant accounting policies of the School District are as follows:

a) Basis of Accounting

The financial statements have been prepared in accordance with Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board. The Budget Transparency and Accountability Act requires that the financial statements be prepared in accordance with the set of standards and guidelines that comprise generally accepted accounting principles for senior governments in Canada, or if the Treasury Board makes a regulation, the set of standards and guidelines that comprise generally accepted accounting principles for senior governments in Canada as modified by the alternate standard or guideline or part thereof adopted in the regulation.

Regulation 257/2010 requires all tax-payer supported organizations in the Schools, Universities, Colleges and Hospitals sectors to adopt Canadian public sector accounting standards without any PS4200 elections effective their first fiscal year commencing after January 1, 2012.

Regulation 198/2011 requires that restricted contributions received or receivable for acquiring or developing a depreciable tangible capital asset or contributions in the form of a depreciable tangible capital asset are to be deferred and recognized in revenue at the same rate that amortization of the related tangible capital asset is recorded.

For British Columbia tax-payer supported organizations, these contributions include government transfers and externally restricted contributions.

The accounting policy requirements under Regulation 198/2011 are significantly different from the requirements of Canadian public sector accounting standards which requires that

- government transfers, which do not contain a stipulation that creates a liability, be recognized as
 revenue by the recipient when approved by the transferor and the eligibility criteria have been met in
 accordance with public sector accounting standard PS3410; and
- externally restricted contributions be recognized as revenue in the period in which the resources are
 used for the purpose or purposes specified in accordance with public sector accounting standard
 PS3100.

As a result, revenue recognized in the statement of operations and certain related deferred capital revenue would be recorded differently under Canadian Public Sector Accounting Standards.

Page 11 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of Consolidation

These financial statements reflect the assets, liabilities, revenues, and expenses of the reporting entity, which is comprised of all controlled entities. Inter-departmental balances and organizational transactions have been eliminated.

The School District does not control any significant external entities and accordingly no entities have been consolidated with the financial statements.

The School District does not administer any trust activities on behalf of external parties.

c) Cash and Cash Equivalents

Cash and cash equivalents include cash and term deposits that are readily convertible to known amounts of cash and that are subject to an insignificant risk of change in value. These cash equivalents generally have a maturity of three months or less at acquisition and are held for the purpose of meeting short-term cash commitments rather than for investing.

d) Accounts Receivable

Accounts receivable are measured at amortized cost and shown net of allowance for doubtful accounts.

e) Inventories for Resale

Inventories of supplies are recorded at the lower of costs and net realizable value using the average cost method. Publications for resale are recorded using the first-in-first-out method. Artists for Kids inventory is recorded using the specific identification method.

f) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and receipt of proceeds for services or products to be delivered in a future period. Revenue will be recognized in that future period when the courses, services, or products are provided.

Page 12 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 3 n).

Funding received for the acquisition of depreciable tangible capital assets is recorded as deferred capital revenue and amortized over the life of the asset acquired as revenue in the statement of operations. This accounting treatment is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that creates a liability in which case the transfer is recognized as revenue over the period that the liability is extinguished.

h) Employee Future Benefits

The School District provides certain post-employment benefits including vested and non-vested benefits for certain employees pursuant to certain contracts and union agreements.

The School District accrues its obligations and related costs including both vested and non-vested benefits under employee future benefit plans. Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits. The benefits cost is actuarially determined using the projected unit credit method pro-rated on service and using management's best estimate of expected salary escalation, termination rates, retirement rates and mortality. The discount rate used to measure obligations is based on the cost of borrowing except as per the election described in Note 2.

The cumulative unrecognized actuarial gains and losses are amortized over the expected average remaining service lifetime (EARSL) of active employees covered under the plan.

The most recent valuation of the obligation was performed at March 31, 2013 and projected to June 30, 2016. The next valuation will be performed at March 31, 2016 for use at June 30, 2016. For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31 was adopted for all periods subsequent to July 1, 2004.

The School District and its employees make contributions to the Teachers' Pension Plan and Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred.

Page 13 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Asset Retirement Obligations

Liabilities are recognized for statutory, contractual or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related tangible capital asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion expense is included in the Statement of Operations.

j) Tangible Capital Assets

The following criteria apply:

- Tangible capital assets acquired or constructed are recorded at cost which includes amounts that
 are directly related to the acquisition, design, construction, development, improvement or
 betterment of the assets. Cost also includes overhead directly attributable to construction as well
 as interest costs that are directly attributable to the acquisition or construction of the asset.
- Donated tangible capital assets are recorded at their fair market value on the date of donation, except in circumstances where fair value cannot be reasonably determined, which are then recognized at nominal value. Transfers of capital assets from related parties are recorded at carrying value.
- Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion
- Tangible capital assets are written down to residual value when conditions indicate they no
 longer contribute to the ability of the School District to provide services or when the value of
 future economic benefits associated with the sites and buildings are less than their net book
 value. The write-downs are accounted for as expenses in the Statement of Operations.
- Buildings that are demolished or destroyed are written-off.
- Works of art, historic assets and other intangible assets are not recorded as assets in these financial statements.
- The cost, less residual value, of tangible capital assets (excluding sites), is amortized on a straight-line basis over the estimated useful life of the asset. It is management's responsibility to determine the appropriate useful lives for tangible capital assets. These useful lives are reviewed on a regular basis or if significant events initiate the need to revise. Estimated useful life is as follows:

40 years
10 years
10 years
5 years
5 years

Page 14 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k) Capital Leases

Leases that, from the point of view of the lessee, transfer substantially all the benefits and risks incident to ownership of the property to the School District are considered capital leases. These are accounted for as an asset and an obligation. Capital lease obligations are recorded at the present value of the minimum lease payments excluding executor costs, e.g., insurance, maintenance costs, etc. The discount rate used to determine the present value of the lease payments is the lower of the School District's rate for incremental borrowing or the interest rate implicit in the lease.

All other leases are accounted for as operating leases and the related payments are charged to expenses as incurred.

1) Prepaid Expenses

Payments for insurance, subscriptions, membership and maintenance contracts for use within the District in a future period are included as a prepaid expense and stated at acquisition cost and are charged to expense over the periods expected to benefit from it.

m) Funds and Reserves

Certain amounts, as approved by the Board are set aside in accumulated surplus for future operating and capital purposes. Transfers to and from funds and reserves are an adjustment to the respective fund when approved.

n) Revenue Recognition

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Contributions received or where eligibility criteria have been met, are recognized as revenue except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions including authorization by the transferring government.

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized
 as revenue in the year related expenses are incurred,
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased, and
- Contributions restricted for tangible capital assets acquisitions other than sites are recorded as
 deferred capital revenue and amortized over the useful life of the related assets.

Page 15 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n) Revenue Recognition (continued)

Donated tangible capital assets other than sites are recorded at fair market value and amortized over the useful life of the assets. Donated sites are recorded as revenue at fair market value when received or receivable.

The accounting treatment for restricted contributions is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that meets the criteria for liability recognition in which case the transfer is recognized as revenue over the period that the liability is extinguished.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

Investment income is reported in the period earned. When required by the funding party or related Act, investment income earned on deferred revenue is added to the deferred revenue balance.

o) Expenditures

Expenses are reported on an accrual basis. The cost of all goods consumed and services received during the year is expensed. Interest expense includes interest for the capital loan payable to the BC Provincial Treasury.

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever possible, expenditures are determined by actual identification. Additional costs pertaining to specific instructional programs, such as special and aboriginal education, are allocated to these programs.
 All other costs are allocated to related programs.
- Actual salaries of personnel assigned to two or more functions or programs are allocated based on the time spent in each function and program. School-based clerical salaries are allocated to school administration and partially to other programs to which they may be assigned. Principals and Vice-Principals salaries are allocated to school administration and may be partially allocated to other programs to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual program identification.

Page 16 june 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The financial assets and financial liabilities portray these rights and obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract.

Financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and other liabilities.

Except for portfolio investments in equity instruments quoted in an active market that are recorded at fair value, all financial assets and liabilities are recorded at cost or amortized cost and the associated transaction costs are added to the carrying value of these investments upon initial recognition and amortized using the effective interest rate method. Transaction costs are incremental costs directly attributable to the acquisition or issue of a financial asset or a financial liability.

Unrealized gains and losses from changes in the fair value of financial instruments measured at fair value are recognized in the statement of remeasurement gains and losses. Upon settlement, the cumulative gain or loss is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to financial instruments are reported in the statement of operations. There are no measurement gains or losses during the periods presented; therefore no statement of remeasurement gains or losses is included in these financial statements.

All financial assets except derivatives are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the statement of operations. A write-down of a portfolio investment to reflect a loss in value is not reversed for a subsequent increase in value.

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

q) Measurement Uncertainty

Preparation of financial statements in accordance with the basis of accounting described in note 3 a) requires management to make estimates and assumptions that impact reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the reporting periods. Significant areas requiring the use of management estimates relate to the potential impairment of assets, estimates for contingent liabilities, rates for amortization and estimated employee future benefits. Actual results could differ from those estimates.

Page 17 June 2013

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

r) Adoption of New Accounting Policy

On July 1, 2012, the School District adopted PS3450, Financial Instruments. Recognition, derecognition and measurement policies followed in the financial statements for periods prior to July 1, 2012 are not reversed and, therefore, the financial statements of prior periods, including comparative information, have not been restated.

As at June 30, 2013 and for the year then ended, financial instruments are accounted for prospectively in accordance with accounting standards as described in note 3 p).

As at July 1, 2011, June 30, 2012 and for the year ended June 30, 2012, financial instruments were accounted for in accordance with Part V of the CICA Handbook. There were no changes in the recognition and measurement of financial instruments upon adoption of PS3450.

NOTE 4 ACCOUNTS RECEIVABLE - OTHER RECEIVABLES

	June 30, 2013	June 30, 2012	July 1, 2011

NOTE 6 CAPITAL LOAN PAYABLE

The following loans approved under Section 144 of the School Act are outstanding:

Approval Date	Year	Interest	Term	Amount	Balance O/S
	Borrowed	Rate		Borrowed	
November 27, 2008	2008	0.45%	1 – 3 Months	\$7,211,827	\$7,211,827
		1.02%			
Unamortized Discount					(1,717)
Total					\$7,210,110

The School District has been approved to borrow up to \$10,500,000 related to specific Capital Projects. The capital loan outstanding of \$7,211,827 is payable to the BC Provincial Treasury, Debt Management. The loan is advanced for one to three months at a time and interest is paid to the Province of British Columbia at the time of the maturity. The principal will be repaid through future land sales. The related unamortized discount on the loan interest of \$1,717 has been netted against the loan principal.

NOTE 10 EMPLOYEE FUTURE BENEFITS

Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits. Funding is provided when the benefits are paid and accordingly, there are no plan assets. Although no plan assets are uniquely identified, the School District has provided for the payment of these benefits.

Page 24

NOTE 11 TANGIBLE CAPITAL ASSETS (Continued)

Works of art and historic assets

The School District manages and controls various works of art and non-operational historical cultural assets including buildings, artifacts, paintings and sculptures located at the Educational Services Center and public display areas. These assets are not recorded as tangible capital assets and are not amortized. The value of the permanent art collection is \$1,585,145 (2012: \$1,545,895).

NOTE 12 DISPOSAL OF SITES AND BUILDINGS

During the year, the School District disposed of the former School Board office site located on Chesterfield Avenue and a surplus piece of land located at Argyle Secondary School. The net proceeds to the District on the sales were \$9,399,241. A gain of \$9,367,066 was recorded on disposal and \$372,688 as an increase in deferred capital revenue.

NOTE 13 EMPLOYEE PENSION PLANS

The School District and its employees contribute to the Teachers' Pension Plan and Municipal Pension Plan, jointly trusteed pension Plans. The Board of Trustees for these plans represents plan members and employers and is responsible for the management of the pension plan including investment of the assets and administration of benefits. The pension plans are multi-employer contributory pension plans. Basic pension benefits provided are based on a formula. The Teachers' Pension Plan has about 46,000 active members from school districts, and approximately 31,000 retired members from school districts. The Municipal Pension Plan has about 178,000 active members, of which approximately 23,000 are from School Districts.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and the adequacy of plan funding. The most recent actuarial valuation of the Teachers' Pension Plan as at December 31, 2011 indicated an \$855 million funding deficit for basic pension benefits. The next valuation will be as at December 31, 2014 with results available in 2015. The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2009 indicated a \$1,024 million funding deficit for basic pension benefits. The next valuation will be as at December 31, 2012 with results available later in 2013. Defined contribution plan accounting is applied to the plan as the plan exposes the participating entities to actuarial risks associated with the current and former employees of other entities, with the result that there is no consistent and reliable basis for allocating the obligation, plan assets and cost to individual entities participating in the plan. School District No. 44 paid \$12,668,397 (2012: \$12,474,012) for employer contributions to these plans in the year ended June 30, 2013.

Page 25 June 2013

NOTE 14 ACCUMULATED SURPLUS

Accumulated surplus consists of individual fund surpluses as follows:

	2013	2012
Invested in tangible capital assets	\$ 92,792,371	\$ 93,074,005
Operating surplus	5,134,753	5,335,958
Local capital surplus	4,143,838	(4,646,814)
	\$ 102,070,962	\$ 93,763,149

Interfund transfers between the operating, special purpose and capital funds for the year ended June 30, 2013, were as follows:

- Tangible capital assets purchased from operating fund: \$1,046,176
- Tangible capital assets (work in progress) purchased from operating fund: \$216,072
- Accumulated surplus transferred from operating to capital fund: \$750,000
- Tangible capital assets purchased from special purpose fund: \$593,445
- Tangible capital assets (work in progress) purchased from special purpose fund \$573,022

The operating surplus has been internally restricted (appropriated) by the Board for:

	2013	2012
Restricted Surplus		
Restricted Balances Schools	\$420,000	\$620,000
Salary & Benefit Expenses to support 3 year staffing plan	2,300,000	2,600,000
Additional Salary & Benefit Expenses to support next year staffing plan	2,116,000	1,400,000
Outstanding Purchase Orders as at June 30th	295,000	120,000
Subtotal Internally Restricted	\$5,131,000	\$4,740,000
Unrestricted Surplus	3,753	595,958
Total Available for Future Operations	\$5,134,753	\$5,335,958

NOTE 15 RELATED PARTY TRANSACTIONS

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities, and crown corporations. Transactions with these entities, unless disclosed separately, are considered to be in the normal course of operations and are recorded at the exchange amount.

NOTE 16 CONTRACTUAL OBLIGATIONS

The School District has entered into contracts related to capital projects (Queen Mary, Mountainside, and the Annual Facilities Grant) totaling approximately \$4,490,931.

NOTE 17 BUDGET FIGURES

Budget figures included in the financial statements represent the annual budget approved by the Board on May 22, 2012. The Board approved the amended annual budget on February 19, 2013. The following table sets out the amended annual budget with a comparison to the annual budget.

Annual Budget	t - Revenue	and Expense

Surplus (Deficit), for the year	6,243,324	7,266,969	8,307,813

NOTE 18 CONTINGENCIES

The School District has granted an irrevocable standby letter of credit in the amount of \$100,000 in favour of the Corporation District of North Vancouver. This letter is in lieu of security deposits for capital projects. A second irrevocable standby letter of credit in the amount of \$44,817 in favour of the Corporation of the District of North Vancouver was issued in lieu of a security deposit for the Highlands School capital project.

In 2011, the School District was issued a writ of summons in a class action lawsuit involving 25 other school districts throughout the Province, seeking recovery of tuition fees paid for summer school courses in prior fiscal periods. The outcome of this action nor any potential financial consequences are known at this time.

Certain schools in the School District may contain asbestos. No amount has been recorded in these financial statements with regard to this potential liability since the fair value of the future removal costs cannot be reasonably estimated due to unknown timelines.

The nature of the School District's activities are such there is usually litigation pending or in process at any time. With respect to unsettled claims at June 30, 2013, management believes the School District has valid defenses and appropriate insurance coverage in place. In the event that any claims are successful, management believes that such claims are not expected to have a material effect on the School District's financial position or operations.

	\$	155,217,738	\$	150,076,235	

NOTE 20 ECONOMIC DEPENDENCE

The operations of the School District are dependent on continued funding from the Ministry of Education and various governmental agencies to carry out its programs. These financial statements have been prepared on a going concern basis.

NOTE 21 RISK MANAGEMENT

The School District has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk.

The Board ensures that the School District has identified its risks and ensures that management monitors and controls them.

Page 28 June 2013

NOTE 21 RISK MANAGEMENT (Continued)

a) Credit risk:

Credit risk is the risk of financial loss to an institution if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held consisting of cash, cash equivalents and amounts receivable.

The School District is exposed to credit risk in the event of non-performance by a borrower. This risk is mitigated as most amounts receivable are due from the Province and are collectible.

It is management's opinion that the School District is not exposed to significant credit risk associated with its cash and cash equivalents as they are placed in recognized British Columbia institutions and the School District invests solely in placement of funds with institutions that have achieved the highest creditworthiness in the marketplace and earned a public reputation as a good credit risk. Cash equivalents consist of term deposits held with a credit union and the Provincial Central Deposit Program.

b) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of currency risk and interest rate risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rates. It is management's opinion that the School District is not exposed to significant currency risk, as amounts held and purchases made in foreign currency are insignificant.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The School District is exposed to interest rate risk through its cash equivalents. It is management's opinion that the School District is not exposed to significant interest rate risk as they invest solely in investments that are considered liquid (e.g. term deposits) that have a maturity date of no more than 3 years.

c) Liquidity risk:

Liquidity risk is the risk that the School District will not be able to meet its financial obligations as they become due.

The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

Risk Management and insurance services for all School Districts in British Columbia are provided by the Risk Management Branch of the Ministry of Finance.
