SUBJECT: Notice of Extended Work Hours – Cloverley Elementary School Construction

Dear Neighbor,

We hope this message finds you well. Pomerleau Construction is currently working on the new Cloverley Elementary School project, and we want to keep you informed about upcoming activities that may affect your area.

On **Monday October 27th**, our team will be pouring the concrete floor for the school. This process involves one large slab that must be poured continuously to ensure structural integrity. As a result, work will take place between 6:30 AM and 10:00 PM.

We understand that extended hours can be disruptive, and we are committed to minimizing the impact on the community. We will take every measure possible to minimize noise during these hours.

Thank you for your understanding and support as we complete this important step in building a safe and welcoming learning environment for local students. If you have any questions or concerns, please feel free to contact us at (604) 268-7395.

Warm regards,

Pomerleau Construction Team
