

DEVELOPMENT TEAM INTRODUCTION

Small Scale + Sensitive + Socially Responsible

Small Scale

- *Locally active architect, developer, planner/urban designer*
- *Farzin Yadegari, Architect*
- *Atti Group Developers*
- *Gloria Venczel, Cityscape Design Inc. , development planner for the Ridgeway & 9th project at CNV*

Precedent : Ridgeway and East 9th Street, Farzin Yadegari, Architect

DEVELOPMENT TEAM INTRODUCTION

Small Scale + Sensitive + Socially Responsible

Sensitive

- *the scale of the neighbourhood matters*
- *Sense of entry and pedestrian friendliness matters*
- *Character and fit matters*

Ridgeway and East 9th Street,
Farzin Yadegari, Architect

DEVELOPMENT TEAM INTRODUCTION

Small Scale + Sensitive + Socially Responsible

Socially Responsible

- *Verandas make for pedestrian friendly streetscape, as well as a safer one (“eyes on the street”).*
- *Option One has Secondary Suites as a form of market affordable rental housing.*
- *Option Two has a duplex form which provides for more market affordable ownership + “Lock-Off Units”, market affordable rental housing .*

Precedent: Mahon Avenue,
CNV

NEIGHBOURHOOD CONTEXT

North of Ridgeway
Annex

- 0.5 FSR neighbourhood
- Single family, Level 1 in the Official Community Plan

South of Ridgeway
Annex

Looking South across
Ridgeway Annex

East of Ridgeway
Annex

South of Ridgeway
Annex

Option #1: 15 Single Family Lots + Park+ Density Transfer

- 0.5 FSR, same as neighbourhood.
- Narrow lots.
- Single family character.
- Legal mortgage helper: secondary suites in basement as a form of market affordable rental housing .
- Creates more market affordability for single family housing.
- Park space dedicated from development property and City Lane
- Dedicated property of 7,250 sq ft for park transferred off site.

SITE DATA - OPTION -1 :

CIVIL ADDRESS: 450 EAST 5TH STREET NORTH VANCOUVER, B.C.

LOT AREA: APPX. 62,500 SQ.FT.

PROPOSED F.S.R.: 0.50

TOTAL BUILT-ABLE AREA: 31,250 SQ. FT.

TOTAL UNITS: 15 SINGLE FAMILY UNITS

EACH UNIT: 2 STORIES & BASEMENT

CELLAR FLOOR: SECONDARY SUITE: 900 SQ. FT.

MAIN FLOOR: LIVING ROOM, DINNING ROOM KITCHEN: 900 SQ. FT.

SECOND FLOOR: 2 BEDROOM, 2 BATHROOMS, LAUNDRY: 700 SQ. FT.

TOTAL FLOOR AREA: 2500 SQ. FT.

15 UNITS X 1600 S.F.= 24,000 S.F.

EFFECTIVE F.S.R.= 0.384

TRANSFER DENSITY : 31,250 S.F. - 24,000 S.F.=7,250 S.F.

Cityscape Design Inc.

Option #1: 15 Single Family Lots + Park+ Density Transfer

Precedent Architecture and Styles from CNV

Option #2: 28 Units in Duplex Form + “Lock-Off” Units

- 0.75 FSR
- Still within the single family housing form.
- 2 duplexes in the front, two in the back over the parking
- 1,674 sq ft units, family sized housing.
- Market affordable housing in duplex form.
- Second or third bedroom could be a “Lock-Off” unit as a legal mortgage helper.
- Larger park space dedication from site plus conversion of City Lane

SITE DATA - OPTION -2 :

CIVIL ADDRESS: 450 EAST 5TH STREET NORTH VANCOUVER, B.C.

LOT AREA: APPX. 62,500 SQ.FT.
 PROPOSED F.S.R.: 0.75
 TOTAL BUILT-ABLE AREA: 46,875 SQ. FT.

TOTAL UNITS: 28

EACH UNIT: 3 STORIES

MAIN FLOOR: LIVING ROOM, DINNING ROOM KITCHEN: 582 SQ. FT.

SECOND FLOOR: 2 BEDROOM, 2 BATHROOMS, LAUNDRY: 582 SQ. FT.

THIRD FLOOR: MASTER BEDROOM, EN-SUITE BATHROOM: 510 SQ. FT.

TOTAL FLOOR AREA: 1674 SQ. FT.

Cityscape Design Inc.

Ridgeway Annex-Phase Two: Development Proposal
 November 20, 2012

Option #2: 28 Units in Duplex Form + “Lock-Off” Units

Precedent Architecture and Styles from CNV

Process

- Any proposed change in use would have to go through an Official Community Plan review and a rezoning .
- Such a change in land use requires considerable public consultation as required by the City.
- Review through the Advisory Design Panel and Advisory Planning Commission through community representatives.

Unfeasible Lease

- The existing buildings on the site are old and the maintenance costs may make not make it feasible from an operational point of view for reuse
- Outdated buildings may require Building Code updating for safety
-

Option #3-Outside of the Box Thinking: Retaining Half the Site for the Community

- We struggled with the notion of redeveloping a school site-it is a long term educational asset in the City.
- There have been no non-profits who stepped forward to present an alternative redevelopment scheme as it is not a feasible option.
- The market has stepped forward.
- A density transfer at 0.5 FSR for the northern portion of the site could be bought by the City or brokered by the City to be transferred to another development site within a year of a successful rezoning and OCP Amendment.
- Half the site would be owned by the City for Community Use in perpetuity

Landscape Principles

- Green rain water treatment /bio swales.
- Native vegetation, xeriscaping to minimize potable water use for irrigation.
- Permeable paving.

Traffic Estimates

- Conversion of the site to a daycare facility will generate by far the maximum volume of new traffic (164 veh/h during the AM peak hour and 170 veh/h during the PM peak hour)
- Should the elementary school site be reactivated with 200 students, it would generate the second highest volume of traffic (90 veh/h during the AM peak hour and 56 veh/h during the PM peak hour)
- Construction of 28 townhouses / condos would generate 12 veh/h during the AM peak hour and 15 veh/h during the PM peak hour, which is equivalent to 1 vehicle movement every 4-5 minutes
- Construction of 15 single family homes on the site would generate the lowest volume of new traffic (11 veh/h during the AM peak hour and 15 veh/h during the PM peak hour), which is equivalent to 1 vehicle movement every 4-5 minutes as well.
