B. Mental Health and Well-Being in Schools and the Community

7:00 pm

Mental health and well-being is one of six strategic goals in the North Vancouver School District's Strategic Plan 2021 - 2031. This Standing Committee Meeting will look at what the school district is doing to support mental health, and how it works with others in the community.

We'll explore two key questions:

1. What role does public education play in supporting and promoting the mental health and well-being of students and adults?
2. How does the school district collaborate with community agencies to support children and families with more targeted or intensive mental health and family system needs?

The session will include presentations and group discussions with community members. The goal is to help everyone better understand the school district's approach to mental health and well-being in schools and the wider community.
