7 secondary schools
(3 French Immersion)

\$257.4 million annual budget
(2025-26 fiscal)

2,650+ staff
7 elected trustees

How we work

Pillars of Education Practice

- Curriculum
- Instruction
- Assessment
- Social Emotional Learning

Universal Design for Learning

- **Universal** supports serve all students.
- **Targeted** supports focus on individual or group strategies to enhance universal supports.
- **Intensive** supports build from and add to universal and targeted supports, and are highly individualized and specialized.

Vibrant Learning Communities' six key attributes:

- A focus on inclusive teaching and learning
- A culture of teamwork and collaboration
- A strong sense of belonging, community and collective responsibility
- Strong systemic structures
- Respect for adult and student diversity
- Ongoing and relevant communication of student learning

- Early Learning, including StrongStart
- English Language Learning
- French Immersion
- Inclusive Education
- Indigenous Education
- International Baccalaureate
- International Education
- North Vancouver Online Learning
- Peak Performance
- Settlement Workers in Schools
- Social Emotional Learning & Mental Health
- Summer Learning

Family of Schools model

Each Family of Schools (FoS) is represented by the K to 12 learning continuum and includes a secondary school and the related elementary schools. The purpose of this model is to build and maintain community within secondary school neighbourhoods, enhance staff collaboration and development, and optimize student supports.

Each FoS is supported by a director of instruction, human resource manager, FoS leader, FoS teacher leader, school district administrators and itinerant specialist staff. The FoS Leadership Team meets regularly throughout the school year with an assistant superintendent, principals and vice-principals to determine priorities and plans of support.
