- **Today is the International Day of Persons with Disabilities.** People with disabilities are leaders in innovation, policy, and justice, yet they often face barriers to participation. The recent Doha Political Declaration reminds us: **sustainable development is impossible without inclusion.** From disaster preparedness to technologies like text messaging and voice activation, their contributions benefit everyone.

What can you do?

- Learn about accessibility and inclusion.
- Support classmates by promoting respect and understanding.
- Speak up for equal opportunities for all.
-

Together, we can build a school community where everyone thrives — because when inclusion is real, everyone wins.
