## ESPRESSO JJ

**Toasty, caramelized nuts, cocoa. Roasted for espresso and also makes a sweet, balanced drip coffee.**

Named after JJ himself, Espresso JJ embodies our goal to roast coffees that are balanced and satisfying. Blended chiefly from Guatemalan and Colombian components, this medium-dark roast coffee has warm, toasty flavours of caramelized nuts and cocoa. Though espresso by name, it makes an excellent drip coffee that emphasizes body and sweetness.

## EASTSIDE

**Chocolate, fruit, full-bodied. Roasted for espresso and also makes a satisfying, complex drip coffee.**

Eastside celebrates the glorious diversity of specialty coffee by blending distinct flavours from opposite ends of the globe. Latin American and Ethiopian components provide a foundation of chocolate notes and fruit aromatics respectively. A medium-dark roast, Eastside highlights depth and complexity when brewed as drip coffee. *Certified organic.*

## RAILTOWN

**Dark, roasty, no acidity. Roasted for a smoky, full-bodied drip coffee.**

Railtown is the culmination of our charred lineage of West Coast wonders like Doppio Torrefatto and the legendary Caffè Inferno. This dark roast blend is chiefly a Latin American coffee that can withstand the heat. When nothing but bold and dark will do, drip Railtown. *Certified organic.*

## DECAF

**Sweet, mellow, decaf. Roasted for espresso and also makes a delicious, mild drip coffee.**

The Swiss Water® Process starts with pure water and ends with great coffee that is 100% chemical-free and 99.9% caffeine-free. A medium-dark roast coffee blend hailing from Latin America, sweet and mellow flavours predominate. It tastes equally delicious as espresso or drip coffee. *Certified organic.*
