

Puzzle of the Week

Date: _____

Worked on by: _____

Working together to solve a puzzle can be fun, not to mention helpful. To give credit where credit is due, list all the people who worked together on this puzzle. (They could be friends, classmates, and/or family members.) Please include last names and division numbers (for students).

Around the Block:

Find your way from “start” to “finish” passing through ALL the white squares. (You may only go through each square once!) You can move up, down or across, but not diagonally.
