

Puzzle of the Week

Date: _____

Worked on by: _____

Working together to solve a puzzle can be fun, not to mention helpful. To give credit where credit is due, list all the people who worked together on this puzzle. (They could be friends, classmates, and/or family members.) Please include last names and division numbers (for students).

There are some dogs and birds.

Show your work!

In total, there are 16 heads and 38 feet.

- How many dogs?
- How many birds?
