

# Puzzle of the Week

Date: \_\_\_\_\_

Worked on by: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Working together to solve a puzzle can be fun, not to mention helpful. To give credit where credit is due, list all the people who worked together on this puzzle. (They could be friends, classmates, and/or family members.) Please include last names and division numbers (for students).

## The Bunny Box

Nine bunnies are in a square pen. Construct additional square pens so that each bunny is in a pen by itself. What is the least amount of square pens you need to construct?

No rectangles!
