DEFINITIONS:

* Special Projects Materials:

These are materials that would be used when creating special take-home projects such as gift items or completed products that the student would take home for personal use. These are materials that are different from traditional "school supplies" and/or school supplies packages (e.g., pens, pencils, glue, duotangs, erasers, etc). Examples of special projects materials would be supplies such as: pottery clay, yarn, fabric, beads and other craft materials, etc.

**School Supplies Packages:

This applies to schools where school supplies packages are prepared and **sold by the school** (i.e., the school buys supplies in bulk and then re-distributes into school supplies packages). The payment collected stays **at the school**. ***If your school only "facilitates" purchases of packages through a third party supplier (i.e., you collect orders and money for a company such as EduPac, Creativepacs, School Start, etc. and forward the money to them), please leave the cell(s) blank.*** We only require \$\$ amounts if the school is "selling" it's own packages.

Reminder: Purchase of School Supplies packages from the school must not be mandatory; parents can request supplies lists and choose to purchase/provide supplies themselves.

NOTE: The "Kindergarten Consumable Supplies Fee" amounts (K Fee) is now recorded as a "School Supplies Package" in the "School Supplies Packages" column. A district-wide recommended amount for this fee is based upon consistent curricular activities across all K classes. For 2017-18, it is suggested that this amount would be between \$40-45; however, schools should charge the actual, cost-recovery amount for the materials. For some schools, cost-recovery may be outside of this suggested amount.
