

## **Announcements for Mar. 2, 2026**

Boys, there is no boys club happening this Wednesday because of Personal Project. We will see you next week with a special guest speaker!

Conratulations to our winners of the library Lunar New Year contest! Our two winners are: Hannah Gudoy in grade 8, and Moneli Safarkhah in grade 9. Happy lucky year of the horse! Love, the library.

The math department will organize the FGH contests for Grade 9 to 11 students on April 1st. Grade 12 students will have the Euclid contest on March 31st. This is the last chance for grade 9 to 12s to participate in the math contest this school year. All registrations will be due on March 5th (Thursday this week). Please come to D312 and ask Ms. Dai for the registration form. You also can get the registration form from your math teacher. All students are welcomed to register one of these math contests before the due date.
