Hey Carson, this week is Mental Health Week! "Children don't experience mental health problems." Ever heard of this mental health myth? Well, it's not true! Even very young children can show signs of mental health concerns which can result in biological, social and psychological factors. It is always important that we stay connected and communicate with those around us, younger people included. If you have any questions or want to learn more about becoming a mental health advocate at Carson, message Jack.org's Instagram: @jackdotorgcg

Reminder to Boys club we are changing the days of our meeting to Thursdays after school. If you are interested in attending our Boys club meeting please meet today after school in room E202. Boys club is a mentorship group providing support, scholarships, and mentorship to Carsons young men.
