## The Corpus Christi College Circle of Fellows has three main elements:

### 1. Junior Fellows Aspiring Leaders

Junior Fellows will develop research projects and cultivate professional skills under the guidance of a Senior Fellow, and collaborate with peers to design effective presentations. These young scholars will develop lifelong skills, grow their networks, and build a solid foundation for future scholarship at UBC and beyond.

### 2. Fellows Experts and Mentors

Fellows bring their experience, passion, and vision from a range of perspectives to mentoring Junior Fellows. They help students make connections between classroom learning and real-life experiences.

### 3. Sponsors Visionary Leaders

Sponsors are change-makers whose interest in the potential of students as future entrepreneurs, teachers, lawyers, policy makers, environmental advocates, healthcare professionals, and a host of other professions, inspires them to support the Circle of Fellows.

## Who can become a Junior Fellow?

All high school students may apply directly. Students can also be nominated by a representative of their school, including administrators and counsellors.
