Dear Seycove Parents/Guardians,

Re: Course Programming Process and Parent Information Sessions for Current Grade 8-11 Students

We are writing to invite you to our upcoming Course Programming Parent Information Presentations and to share key information about the process for Course Programming and Course Requests for the 2026-2027 school year. The purpose of the parent sessions is to review the process for students to request their courses for the 2026-2027 school year and to provide an overview to parents/guardians on factors to consider when assisting your student(s) with their course request decisions.

The course programming process is multi-faceted and requires careful consideration and planning. After our counsellors have provided initial information to parents and students, we request that you continue to discuss various course options, consider student strengths and interests, talk to Seycove teachers about their course offerings (content, topics, etc.), contact post-secondary intuitions for admission requirements if necessary, and ask clarifying questions of school counsellors, prior to completing student course request forms and MyEd request entry at home.

The key point of contact for parents and students during the course programming process is your student(s)' grade counsellor, who can be contacted via phone, e-mail, or MS Teams.

As students begin thinking about courses for next year, we encourage thoughtful and intentional decision-making. Course requests play a critical role in how we build our timetable and allocate staffing, as these decisions are based directly on students' requests. Because of this, changes to course requests may not be possible once the timetable has been developed. Taking the time now to consider interests, goals, and balance will help ensure students are well placed for success and support the creation of a schedule that reflects both student needs and available resources.

We look forward to working with you and your student(s) to plan for a successful 2026-2027 school year.

Sincerely,

Seycove Administration
