

**Theatre Production 10/11/12**

**Course Code: MDRD-10/11/12**

In Grade 10/11/12 Theatre, we continue working on some of the advanced skills necessary to play for truth on stage. Building on scene work and improvisational skills, students focus primarily on the elements of effective character building and storytelling, with an eye to creating and performing in front of an audience. To that end, we write and perform short pieces based on personal experience, and stage and perform scenes around dramatic moments. As well, students work on short one-act plays with the emphasis placed on staging, production values, and playing honestly and simply.

**Prerequisite:** None
