As we all know, reading is very important for building our literacy skills and for learning more about life and the human experience. That's why the digital media students have created posters that both engage and inform about the importance of reading. Please be sure to check out all 27 of the submissions in the library window and vote for the poster that is not only visually engaging but also teaches you about how reading is important. There are prizes for the top two posters so vote for your fave!
