Dear Argyle School Community,

Re: Artificial turf field construction project

The North Vancouver School District and District of North Vancouver (DNV) would like to provide you with an update regarding construction of the new artificial turf field at Argyle Secondary.

The school district and DNV are very pleased this project is moving forward. This is an important amenity for both the Argyle community and the community as a whole. Next fall, we look forward to seeing students representing the Argyle Pipers playing and competing on their new on-site sports field and seeing the community come out to cheer on students and sports teams. We also look forward to the field being booked for a wide range of community sports groups outside of school hours.

Both parties have come to an agreement to the terms and conditions of the construction and use of the artificial turf field. The DNV will now proceed to tender the contract for the construction of the artificial turf field, with construction expected to begin shortly thereafter.

The new artificial turf field is expected to be completed by September 2023. While construction is underway, close-by DNV fields have been made available to Argyle for sports practices, games and physical education.

Project information and updates will be available on the [DNV website](#) and the [school district website](#). Should you have any questions or concerns about this project, please contact Mehran Avini, Project Director (AviniM@dnv.org) at the District of North Vancouver.

Sincerely,

David Stuart Chief Administrative Officer District of North Vancouver	Dr. Pius Ryan Superintendent of Schools North Vancouver School District
