Residents in Proximity of Mountainside Secondary

3365 Mahon Avenue
North Vancouver, BC
V7N 3T7

Dear Resident(s):

Re: **Seismic Upgrade Construction work at
Mountainside Secondary**

This letter is to inform local residents that the **Mountainside Secondary Seismic Upgrade Project** is starting in your local area. Construction work on this project will run from **July 17, 2019**, to **August 31, 2021**, and will involve the following tasks:

- Seismic remediation of Mountainside Secondary
- Exterior buttresses, concrete work and site grading of Mountainside Secondary

During this project we will be working **Monday to Friday** from **7:00 a.m. to 8:00 p.m.** (complies with District of North Vancouver bylaws) and will be working inside and outside on the school property. The inside will be insulated to remove noise issues, but there will be work done outside with construction equipment, excavating machinery, trucking, concrete pumps, concrete trucks and deliveries that will cause some noise. We will try to keep the work that creates noise to a minimum during the early and late periods of our shifts to reduce the chances of disruption to the neighbourhood during these times.

We appreciate your understanding and look forward to completing the project with as little disruption to the neighbourhood as possible. Should you have any questions or concerns, please contact Jeff Peters, Unitech Construction Management at 604-943-8845. Project status updates will be posted to the North Vancouver School District website: sd44.ca > Board of Education > Capital Plan & Projects > Capital Projects Updates - Revitalization & Renewal > Mountainside Secondary.

Yours truly,

Unitech Construction Management Ltd.

Sean Dickson
Superintendent

projects with purpose.
