- B. **How Assessment Supports Curriculum**

To support the new BC K-9 curriculum, the Ministry of Education issued a new Interim Reporting Order in the fall of 2016. To fulfill the requirements of the Interim Reporting Order, the North Vancouver School District has created a new elementary report card that enhances teachers' ability to comment on student learning in relation to the new curriculum. While much of the report card format remains visually the same as previous years, there are a few changes that allow for more comprehensive communication with parents. In addition to the new NVSD report card, we also have two separate reporting pilots underway in nine elementary schools this year, testing alternate formats and processes for communicating student learning to parents.

District Vice Principal Kathleen Barter will present an overview of the new curriculum, the changes to the North Vancouver School District report cards, and the reporting pilots underway for the 2016/2017 school year. Through a guided interactive activity, attendees will have an opportunity to provide input regarding the identified processes for communicating student learning.
