

Facilities & Planning Update

Building Schools for 21st Century Learning

Facilities & Planning Update

Agenda:

- Review NVSD Design Principles
- Examples of implementation of Design Principles
 - Major Capital Projects
 - Classroom Enhancement Funding
 - School Enhancement Program funded projects
 - Annual Facilities Grant funded projects
 - Youth Trades Capital

NVSD Design Principles

Core Purpose

- We provide world class instruction and a rich diversity of programs to inspire success for every student and bring communities together to learn, share, and grow.

School Design Principles

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
- Connections to the Wider Community
- Professional Support

Major Capital / SPP / CEF

- Ridgeway Modular Building - Renewal

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
- Connections to the Wider Community

Classroom Enhancement Funding

- Portable installations
 - Ross Road, Lynn Valley, Brooksbank, Highlands

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
- Connections to the Wider Community

Classroom Enhancement Fund

- Carson – Space conversion

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- Connections to the Wider Community
- Professional support

Classroom Enhancement Funding

• Handsworth – Success Centre

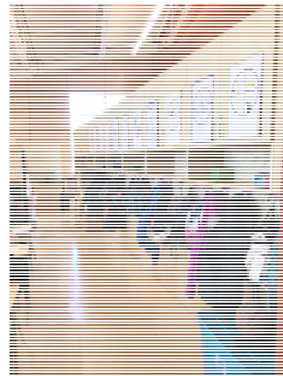

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
- Connections to the Wider Community
- Professional Support

Classroom Enhancement Fund

• Westview / Montroyal – Adaptive Use of Space

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
- Connections to the Wider Community
- Professional Support

Classroom Enhancement Funding

- Handsworth Adaptive use of space

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
- Connections to the Wider Community

School Enhancement Projects

Fire Alarm Systems Renewal

- Dorothy Lynas
- Sherwood Park
- Carisbrooke
- Upper Lynn
- Eastview
- Capilano
- Cleveland
- Montroyal
- Brooksbank
- Ross Road

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment

Annual Facilities Grant

- Montroyal / Dorothy Lynas
Boiler and heating plant replacements

Design Principles considered:

- Healthy, sustainable and accessible environment

Annual Facilities Grant

- Lynnmour – Exterior Building Envelope Renewal

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- Connections to the Wider Community

Annual Facilities Grant

• Capilano Elementary – Outdoor Learning Space

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- Connections to the Wider Community

Annual Facilities Grant

• Capilano Elementary – Outdoor Learning Space

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- Connections to the Wider Community

Annual Facilities Grant

- Cove Cliff Elementary – Outdoor Learning Space

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- Connections to the Wider Community

Annual Facilities Grant

- Sutherland Secondary – Exterior paint and cladding

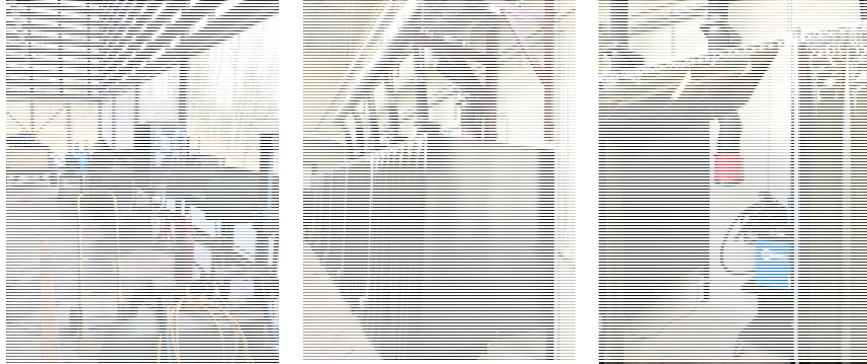

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- School Community connections
- Connections to the Wider Community
- Professional Support

AFG & CWA funding

- Sutherland Secondary - Welding Training Facility

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- School Community connections
- Connections to the Wider Community
- Professional Support

Youth Trades Capital

Three year funding program

- 2016/17 - \$91,362
- 2017/18 - \$53,648
- 2018/19 - \$50,876

Design Principles considered:

- Maximum flexibility and adaptability for today and the future
- Healthy, sustainable and accessible environment
- School Community connections
