

About Our School

Vision

To provide a platform for students to explore and extend learning opportunities while fulfilling their educational requirements.

Mission

North Vancouver School District Summer Learning provides an engaging learning environment where all students can challenge themselves academically and fulfill their personal learning goals through alternative pathways.

Student M.B.

I am proud of my lit circles because I put a lot of work into it, and I described and broke down the book ("Vinland Saga") well. Also, I wrote

Student: T.T.

I am proud of the amount of work I completed because during the regular school year, I am not this productive. I impressed myself with all the work I was able to get done. I am also proud that I received good marks on all my submitted assignments. I put all my focus on getting things done, and it led me to be more productive and making progress in my learning.

(I want to give a special thanks to Laura for being a great and understanding teacher.)

“In every way the teacher didn’t rely on tests to show students’ learning. Tests cause anxiety in my child and don’t always prove what they know. My child was able to be their creative, artistic self in science class.”

Summer Learning parent

- 256 students
