B. **Professional Learning Report**

7:00 pm

It is recognized that professionals develop over the course of their careers from novice to more expert practitioners. Ongoing professional learning opportunities and reflection in action are essential to professional development. We believe it is a shared responsibility between the School District and our employees to enable and encourage life-long learning and development. As such, this Board of Education Standing Committee Meeting will focus on Professional Learning opportunities provided by the School District.

Presenters will provide insight into a few key Professional Development initiatives, ranging from district-wide opportunities for all teaching staff, to Family of School Networks, to teacher team Collaborative Inquiry projects, as well as a brief update on Educational Assistant development. The intent of the presentations is not to provide an exhaustive overview, but to illustrate a few examples of the kinds of professional learning opportunities currently being resourced by the School District.

C. **Closing: Trustee Forward**

8:50 pm
