## Terms and Conditions of Use of Technology within North Vancouver School District

Every North Vancouver student has access to the School District's technological resources, including an individual user account and internet

service. This access is provided via the Next Generation Network (NGN) - the Ministry of Education's secure, high-speed network, which serves B.C.'s government and public schools. The District provides some web-content filtering which is designed to reduce the risk of students accessing inappropriate or harmful sites, which is augmented by instructor oversight during class time.

This use of technology agreement describes a responsible digital citizen at school, at home as well as in personal life. Parents are encouraged to review this form with their children to help ensure they fully understand and accept the terms.
