

★ PUZZLE OF THE WEEK ★

SOLUTION

You have a 3 Litre bucket and a 5 Litre bucket. You need to measure out exactly 7 Litres. How can you do it?

Use the 5L bucket to measure out 5L. Use the 3L to take away 3L from the 5L. You now have 2L. Finally, use the 5L bucket to measure out another 5L and add that to the 2L. You now have 7L!
