## SOLUTION

Who Caught the Biggest Fish?

Captain, Tyger, Sally and Flame all went fishing to see who could catch the biggest fish. Each of them caught a trout. The fish were all different weights.

They weighed the fish in pairs. This is what they found:

- Captain's and Tyger's fish weighed 12lb altogether.
- Tyger's and Sally's fish weighed 14lb altogether.
- Sally's and Flame's fish weighed 15lb altogether.
- The lightest fish weighed 5lb, and all the weights are integers.

Find out how much each fish weighed and put them in order from lightest to heaviest.

1) Tyger's fish – 5lb   2) Flame's fish – 6lb
3) Captain's fish – 7lb   4) Sally's fish – 9lb
