

Puzzle of the Week

Date: _____

Worked on by: _____

Working together to solve a puzzle can be fun, not to mention helpful. To give credit where credit is due, list all the people who worked together on this puzzle. (They could be friends, classmates, and/or family members.) Please include last names and division numbers (for students).

Show your work!

Nine blocks are numbered 1 to 9. Each person takes 3 blocks. Michelle's blocks have a product of 63. Erik's blocks have the product of 48. Robin's blocks have a sum of 16.

Who has what blocks?
