### District Road Work Update:

Pedestrian thoroughfare along Ross Rd may be impeded between 9am-2:30pm, and road users are highly encouraged to take alternate routes and avoid the 1300-1500 block of Ross Road.

Why?

- This comes down to increasing the safety of all road users, including construction crews.
- Crews will begin to excavate a very deep, large hole at mid-block to install a new sanitary pumping station.
- New regulations concerning the safety and positioning of Traffic Control personnel come into effect in December, 2019. Generally, flaggers will now be required to be off the roadway (on sidewalks), and further away from moving equipment.

- This reduces the ability of flaggers to assist pedestrians through site while equipment is moving.
- Those that have no choice but to use Ross Road will be accommodated.
