

Textiles 10

Course Code: MTXT-10

This course is designed to continue to introduce clothing construction techniques to students interested in fashion. Students will add to their knowledge of using a sewing machine. Students will identify sources of inspiration and work towards developing textile designs which consider how tools and materials can be effectively repurposed and recycled. The students will be self-directed in choosing their sewing projects for the year.

Please note that Textiles 9 is not a prerequisite for Textiles 10. Students purchase their own fabric and supplies.

The supplemental fee is used to purchase supplies that enhance the regular curriculum. Supplemental Fee: \$20
