

Woodwork 9

Course Code: MWWK-09

Students in Woodworking 9 learn to use power and hand tools to build finely crafted projects, through demonstrations, theory, and hands-on experience, with a strong emphasis on safety. Students learn a variety of cutting, shaping and joining techniques in the production of tables, stools, cutting-boards, bowls, jewelry boxes and other projects. As well as practical skills, students learn transferable life-skills such as problem solving, work ethic, and perseverance.

There are no pre-requisites for this course.

Supplemental fees help to cover the cost of wood and other materials for take home projects. Supplemental Fee: \$50
