Happy New Year!

Westview has been working on a school-wide goal of kindness. Kindness towards ourselves, those around us and even towards people we may not even know. Being kind is a way to make the world a better place to live in.

All Westview students will be participating in a Random Act of Kindness Project in our community this January and February. The goal of this is for students to demonstrate what they have already learned about kindness and spread it out into the larger community.

Students will be given 5 'Random Acts of Kindness Cards' that they will then pass on to people outside the school community (NOT family members, staff or students) when they do something kind for them. These acts can be small like holding the door open for someone at the grocery store or large like shoveling someone's walkway.

Once they have given out a card, students will come back to school and fill out a slip where they will describe their kind act and add it to the giant paper bucket display outside of their classroom. The goal is to make kindness visible and hopefully it will spread!

Please support our Westview students as they strive to make 2016 the KINDEST year ever.

Kindly,

Westview Staff

THE RANDOM ACT OF KINDNESS PROJECT

Pay it forward by performing a random act of kindness for someone else!

You have received this card from a
Westview Elementary student as part of our
Random Act of Kindness Project.
