Student Self-Assessment of Core Competencies

We have completed the process of student self-assessment. These assessments will be stored online in your child's e-portfolio. To see your child's work follow these steps:

- * Go to the North Van. School District website <https://www.sd44.ca/Pages/default.aspx>
- * Find the green box on the top right of the website and click on 'portal'
- * Fill in your child's log-in information (your child has come home with this information today)
- * On the menu bar find 'portfolio' and click on it.

You will find your child's self-assessment and can click on it to see an enlarged version.

Please see information provided in the link below on ways of talking about the self-assessment with your child.
